

## Dr. Babar Pins Op-Ed "We Must Create A Community of Hope."

Dr. Muhammad Babar, MAC and DHC President, recently submitted an opinion article to the Courier-Journal in collaboration with the Reverend Dr. Bill Holmes. Titled "We must create a community of hope in a post-Trump world to help America heal," the article is essential reading for anyone dedicated to compassion and rebuilding a more inclusive community in the years to come.

One quote reads: "It is our desire that we find a community of hope as we sit down together. Hope is a strange phenomenon giving reason for the cycle of life to keep on moving forward. Hope for a better future for the coming generations has motivated

humans at all times and in all regions to keep on pushing." Thank you Dr. Babar for sharing these universal truths with your community.

## MAC and DHC Volunteers Provide Winter Cheer to UP for Women and Children

Muslim Americans for Compassion and Doctors for Healthy Communities volunteers delivered winter scarves, caps, hot chocolate supplies and multiple cases of bottled water to Uniting Partners for Women and Children (UP) in Louisville, KY on January 29th, 2021.

UP's vision is to ensure homelessness is rare and brief for women and children by providing a safe, empowering space that offers the supportive services and resources needed by women to become self-sufficient. Their model is simple – partner with anyone and everyone who can help to address the issue of family homelessness: congregations, individuals, cities and counties, and businesses of all sizes. They provide comprehensive services for homeless women and children: a safe space, showers, laundry, access to a restroom, phone, mailing address, help obtaining vital documents and case management.
